AGRICULTURAL DEPARTMENT.
F. J. Sawyer of Oldfield, in the year
1884, made and sold 1003 lbs. of butter
from seven cows, besides all the butter
they used in the family, which was no
small amount as their own family con-
sists of four persons besides a hired
man by the month and several hands
by the day doing the milking. He says
the amount sold from these cows, in-
cluding veal calves, gives him a profit
of \$84.00 per cow for the year 1884
against \$20.00 per cow for the same
number of cows for the year 1883. In
1883 they set their milk in pans in the
old fashioned way, but in 1884 they
used a Creamer. This shows a profit
of \$14.00 per cow more for 1884 than
for 1883, and he says that at least one
of this gain may be attributed to the
Creamer. He uses the Davis Swing
Churn, as do also W. W. Andrews, D. L.
Brett, and L. T. Brett, neighbors of
Mr. Sawyer.

AGRICULTURAL DEPARTMENT.
The Work Which We Do Now.—
How often have we heard people say,
when they were doing a piece of work
in a slipshod manner, "O there is no
need of being particular about this; it
will last long enough." Then what do
I care how soon it goes?"
"It takes all kind of people to make
a world," so some one has said; but it
is not only the people who will not
miss such people as these, when they
have shuffled off this mortal coil,
but they leave nothing behind them to
show to the succeeding generation who
lived before them. They come into this
world, and lived and died, without
leaving any records to perpetuate their
memory, and they leave nothing behind
looking forward to the time when their
posterity shall stand where they now
are.

California Letter.
Santa Cruz, Cal., Dec. 29d, 1884.
Mr. Editor.—I am reminded by the
slip on my paper that it is time and
even past for me to renew my sub-
scription for the Advertiser, and as we
are now in the month of January, I
will send you a letter from this part
of California. First let me say that I
am very much pleased at the advance-
ment your paper has made in the past
year. The material in which it is ap-
preciated at home and abroad opens
up a bright future.
